

**A Product of Momar's Greenaction Product Group
Environmentally Responsible Chemistry**

- FORMULATED IN PARTNERSHIP WITH THE EPA DfE, THIS PRODUCT UTILIZES BIODEGRADABLE, NON-TOXIC INGREDIENTS WHICH EXHIBIT MORE POSITIVE ENVIRONMENTAL AND HUMAN HEALTH CHARACTERISTICS THAN CONVENTIONAL FORMULATIONS
- CLEANS AND BRIGHTENS FLOORS AS IT REMOVES FINISH
- EFFECTIVE WITH COLD WATER TO SAVE ENERGY USED TO HEAT WATER
- MAY BE USED WITH OR WITHOUT A FLOOR MACHINE
- NO HARMFUL INGREDIENTS
- NO ODOR
- NO COLOR
- NO RESIDUE
- NO CORROSIVITY

Manufactured by
MoCHEM[®]
Division of Momar, Incorporated
1830 Ellsworth Industrial Dr., N.W.,
Atlanta, Georgia 30318
A Green, Environmentally Responsible
Cleaning Force Throughout the World
Since 1947 Providing Products of
Momar Research in the
U.S.A., Europe, Africa, and Australia

APPLICATIONS

Pry-Bar Is For Use On:

ALL TYPES OF RESILIENT FLOORS:
Asphalt & Rubber Tile—Asbestos—Vinyl—Linoleum—Cork

HARD SURFACE FLOORS:
*Marble—Terrazzo—Ceramic—Travertine—Granite
Slate—Concrete—Spanish Tile*

Pry-Bar is compatible with all conventional metal-interlocking floor finishes as well as zinc-free floor finishes. Works best with Tough-As Nails and Tough-As-Nails Green Floor Coatings.

DIRECTIONS

FLOOR PREPARATION:

1. Dust mop floor making sure all dust, loose dirt, and debris are removed.
2. Remove stubbornly adhering foreign materials (such as chewing gum, tar, glue, etc.) with a putty knife.
3. If baseboards are present, apply Momar TUFF STUFF or TUFFY directly to baseboard, allow to stand for 5 minutes and scrub with a Momar GRAND SCRUB AID.

APPLICATION WITH A LOW SPEED MACHINE:

1. After mixing proper solution, liberally apply solution with mop onto a 100 square foot area of flooring — do not flood.
2. No soak time is required. Finish should start releasing from the floor immediately. Using a floor machine equipped with a Momar LIFESAVER black stripping pad, remove old coating, finish, wax, or seal. NEVER LET SOLUTION DRY ON THE FLOOR.
3. Pick up dirty solution with a wet/dry vacuum, or squeegee dirty solution into a puddle and pick up with a mop.
4. Rinse surface with clean water using a clean mop. Allow floor to thoroughly air dry. If any residue remains, a second rinse may be required. To neutralize the stripper in one application, use Momar Envision at ½ ounce per gallon.

MACHINELESS APPLICATION:

1. After mixing proper solution, liberally apply solution with mop onto a 100 square foot area of flooring — do not flood.
2. Allow to soak for 3 to 5 minutes, then agitate with mop in figure 8 motion.
3. Wait 3 to 5 minutes and pick up solution using mop or wet/dry vacuum. (Heavy build-up and permanent sealers may require use of Momar GRAND SCRUB AID.) NEVER LET SOLUTION DRY ON THE FLOOR.
4. Rinse surface with clean water using a clean mop. Allow floor to thoroughly air dry. If any residue remains, a second rinse may be required. To neutralize the stripper in one application, use Momar Envision at ½ ounce per gallon.

DILUTION DIRECTIONS ARE BASED ON THE FINISH BEING REMOVED

LOW SOLIDS — (12% to 15%) Dilute one part PRY-BAR with 3 parts water.
MEDIUM SOLIDS — (16% to 20%) Dilute one part PRY-BAR with 2 parts water.
HIGH SOLIDS — (21% to 30%) Dilute one part PRY-BAR with 1 part water.
TOUGH AS NAILS FLOOR COATING — Dilute one part PRY-BAR with 1 part water.

PRECAUCION:

AL USUARIO: Si usted no lee Inglés, no use este producto hasta que la etiqueta le haya sido explicada ampliamente.
(TO THE USER: If you cannot read English, do not use this product until the label has been fully explained to you.)

— FORMULATED IN PARTNERSHIP WITH THE DfE PROGRAM —

The Design For The Environment program is one of the EPA's premier partnership programs promoting the integration of cleaner, cheaper, and smarter chemical solutions. Momar is proud to be a partner with the EPA in this program.

Pry-Bar bears the EPA DfE logo because it has been reviewed by the EPA DfE and the ingredients used in Pry-Bar have been screened for potential human health and environmental effects. Based on the EPA's expert judgment, Pry-Bar contains only ingredients that pose the least concern among chemicals in their class.

The cleaning performance of Pry-Bar was evaluated by Momar chemists and found to be equal or superior to traditional cleaners. All regulatory agencies agree that pollution prevention — the reduction or elimination of pollution at the source — is given preference to recycling, treatment, or disposal. Therefore, Pry-Bar is formulated with:

- No perfumes or dyes
- No butyl, citrus, or terpene solvents
- No chlorinated solvents
- No phosphates or phenol compounds
- No EDTA, APE, or NPE compounds
- No Chlorine or Ammonia
- No SARA Title III, Section 313 reportables
- No HAPs (Hazardous Air Pollutants)
- No ODCs (Ozone Depleting Compounds)
- No PROP 65 ingredients
- No skin sensitizing ingredients
- Extremely low VOC - Meets USEPA and CARB VOC requirements

CAUTION

Contains Glycol Ethers and Biodegradable Surfactants. Avoid contact with eyes, skin, and open wounds. Do not take internally. Do not store in temperatures above 110°F.

FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY.
NOT FOR HOUSEHOLD USE OR RESALE.

STORAGE AND DISPOSAL

HANDLING: Although not required, goggles and rubber gloves are recommended with use of this product. Do not use pressure to empty because container is not a pressure vessel.
STORAGE: Store in cool, dry, well ventilated area with closure tight to prevent leakage. Do not store near excessive heat, spark, or open flames. Do not store near strong oxidizing or reducing agents. Keep container tightly closed when not in use. Replace closure after each use.
DISPOSAL: The empty container retains product vapor and residue. Follow all label warnings even after empty. Improper disposal or use of this container may be dangerous and illegal. Refer to applicable local, state, and federal regulations. Labels on abandoned or reused containers may not correctly identify liquid contents. Container with unknown contents must be considered hazardous, and contact with these contents must be avoided. Notify local authorities if found improperly stored or discarded. Do not use this container for another purpose. DO NOT cut or weld container due to explosion hazard.
SPILLAGE: For spills, use proper protective equipment. For small spills, use absorbent, allow to stand, then sweep up into container for disposal. For large spills, evacuate area, dike, then pump into container for disposal.

**PRECAUTIONARY STATEMENTS
Hazard to Humans
KEEP OUT OF REACH OF CHILDREN**

FIRST AID

INGESTION: If ingested, do not induce vomiting. Get medical attention.
EYES: Contact with eyes may cause temporary irritating sensation. Flush eyes with large amounts of water for 15 minutes. Get medical attention.
SKIN: If repeated or frequent contact with skin causes excessive removal of natural oils, apply moisturizing lotion or cream. If dermatitis results, get medical attention.
