# AEROSOLS

## ASSASSIN

### FLYING & CRAWLING INSECTICIDE

An aerosol insecticide with a dual spray action valve that can stream for flying insects and mist for crawling insects. Assassin combines the strength of three active ingredients so it can quickly knock down and knock out flying insects and provide residual kill of crawling insects for up to 6 weeks. With no detectable smell, Assassin can kill a variety of insects including flies, mosquitoes, gnats, wasps, ants, spiders, beetles, fleas, lice, etc. Contains Pyrethrins, Piperonyl Butoxide, and Permethrin. 20 ounce aerosol can. Net Wt. 16 ounces.

## BACK OFF!

### DEET FORTIFIED PERSONAL INSECT REPELLENT

Repels mosquitoes, chiggers, ticks, biting flies, and other small flying insects including fleas. Safe on clothing and exposed skin. Contains the highest DEET/Synergist concentration allowable. 360° valve system so it sprays upside down. 6 ounce can. Net wt. 5 ounces

## CONTRACT

### LONG DISTANCE WASP & HORNET KILLER WITH FREEZING ACTION

A wasp and hornet killer that contains two active ingredients, Phenothrin and Tetramethrin. Contract has a special nozzle that allows a powerful stream to reach as high as 20 feet where nests are normally located. Once the product contacts the nest, it instantly freezes the wasps or hornets with a special freezing solvent while the active ingredients take effect and kill the insects. Contract is safe for indoor and outdoor use and has a 25 KV dielectric strength. 20 ounce aerosol can. Net Wt. 14 ounces.

## PURGE III

### METERED INSECTICIDE

An insecticide designed for use with Momar's Smart Spray System. Purge III dispenses automatically to kill and repel flies, mosquitoes, gnats, and small moths. One can has 3,000 metered bursts. Purge III has a fresh scent and provides maximum flying insect control with three active ingredients: 0.975% Pyrethrins, 1.95% Piperonyl Butoxide, and 3.05% N-Octyl bicycloheptene dicarboximide. U.S.D.A. F1. 8 ounce aerosol can. Net Wt. 6.4 ounces.

## SNIPER

### HIGH-DIELECTRIC WASP & HORNET KILLER

A Tetramethrin and Phenothrin based aerosol used to kill wasps, hornets, bees, and yellow jackets. With its specially designed power spray nozzle, Sniper can spray areas as far away as 16 feet. Sniper can be used both indoors and outdoors and has a dielectric strength voltage of 41 KV. 20 ounce aerosol can. Net Wt. 13 ounces.

# LIQUIDS

## CITRA-PEL

### CONCENTRATED INSECT DETERRENT

An all-natural citronella oil deodorizer and insect deterrent. Contains 4.5% pure citronella oil in an encapsulated form for slow release action. Needs no flame or candle and can be applied by spraying around the perimeter of the area where insect control is desired. One quart will treat a 1,000 square foot area for up to 5 hours. Not for use on skin or clothing. Citra-Pel is a natural deterrent, not a pesticide. Available in 55, 35, and 20-gallon drums, 7-gallon pails, and 1-gallon jugs.

## CY-KICK CS

### ULTRA-CONCENTRATED INSECTICIDE

A controlled-release, flowable microencapsulated concentrate containing 6% cyfluthrin. Designed for indoor and outdoor use, Cy-Kick CS kills ants, bees, wasps, beetles, biting and blood-feeding pests, and many other flying and crawling insects. Dilutes 1 ounce per gallon for most applications. Available in 16 ounce bottles with accu-measure dosing.

# SOLIDS

## ALTOSID BRIQUETS

### MOSQUITO GROWTH REGULATOR

A sustained release mosquito growth regulator to prevent adult mosquito emergence (including those which may transmit west nile virus). Treated larvae continue to develop normally to the pupal stage where they die. Contains 8.62% S-Methoprene. 1 briquet treats 100 square feet for 30 days. 100 count case.

## ALTOSID PRO G

### INSECT GROWTH REGULATOR GRANULES

An insect growth regulator to prevent adult mosquito emergence. Prevents mosquitos from becoming breeding, biting adults. 30-day protection. Easy to apply granules effectively kill fleas, gnats, midges, mosquitoes, and mosquito larvae. Contains 1.5 % S-Methoprene. 2.5 pound containers.

## BOMBS AWAY

### FIRE ANT KILLER

A fire ant dehydrator containing quick-killing, natural botanical pyrethrum, an extract of the chrysanthemum flower. Bombs Away is a powder that is sprinkled directly onto the fire ant mound. Not only is it fast acting but it also leaves a residual that keeps working for up to six months if undisturbed. Bombs Away is approved for use in and around food/feed areas. Bombs Away kills ants, carpenter ants (eastern and western), fire ants, pharaoh ants, and even dry wood termites on contact. Net contents: 6 ounces per bottle.

## GERANIOL GRANULES

### INSECT REPELLENT & DEODORIZER

All-natural, DEET free, granular insect repellent. Repels mosquitoes, cockroaches, flies, gnats, fleas, ticks, head lice, no-see-ums, and more from treated areas. Formulated with ground corncob as the base material so it is safer and more absorbent than rock-based materials. Non-toxic controlled release formulation works for weeks and weeks. Available in 3 and 16 pound containers.

## MOSQUITO DUNKS

### 30-DAY FLOATING LARVICIDE

Biological mosquito control. Provides long term control of mosquito larvae by preventing the eggs and larva of mosquitoes from maturing. The dunks release B.t.i. (Bacillus thuringiensis) into areas with standing water. This kills the larva and will not harm other animals such as livestock and pets. One dunk covers up to 100 square feet of surface area and usually lasts 30 days. 100 count case.

## PERMETHRIN GRANULES

### RESIDUAL BROADCAST INSECTICIDE

The recommended replacement to Dursband and Diazinon Powder. Permethrin Granules can be applied in a broadcast spreader at a rate of 1 pound per 500 square feet to provide residual control for up to 4 weeks. For use on lawns, around buildings, and as a band treatment around houses. Kills grubs, fleas, ants, fire ants, army worms, spiders, roaches, and other listed insects. Available in 25 pound bags.

## JUMP SHOT

### READY-TO-USE INSECTICIDE

Flying and crawling, indoor and outdoor insecticide liquid that is ready-to-use for a variety of applications. Jump Shot utilizes the power of 0.5% Permethrin to safely kill annoying pests. Jump Shot provides residual control for up to 60 days and can be safely used on livestock. Jump Shot can be applied through truck-mounted fogging equipment as a fine mist to control large areas of mosquitoes. Available in 55, 35, and 20-gallon drums, 7-gallon pails, 1-gallon jugs, and quart bottles.

## THYME BOMB

### THE GREEN CRAWLING INSECTICIDE & REPELLENT

All-natural insect killer and repellent. Formulated with thyme oil to provide unparalleled effectiveness and a new level of safety for people, animals, and the environment. Kills ants, roaches, drain flies, bed bugs, and dozens of other pesky insects. For indoor and outdoor use. Rapid knock down and kill within 30 seconds of contact. Provides residual control and repellency for up to 1 month. Available in 55, 35, and 20-gallon drums, 7-gallon pails, 1-gallon jugs, and quart bottles.

## TALSTAR PRO

### ULTRA-CONCENTRATED INSECTICIDE

Multi-insecticide designed to control all major pests indoors and outdoors. Formulated with 7.9% Bifenthrin, Talstar Pro dilutes 1 ounce per gallon to kill beetles, wasps, ants, cockroaches, scorpions, armyworms, fleas, fire ants, ticks, and hundreds of other insects. Available in 16 ounce bottles with accu-measure dosing.
