This is a Greenaction Facility

Momar, Incorporated certifies that this facility is a partner with Momar’s Greenaction Program. Greenaction products utilize Environmentally Responsible Chemistry to perform cleaning tasks better than traditional products while minimizing the effects on environmental and human health.

Many Greenaction products have been formulated in partnership with the United States Environmental Protection Agency Safer Choice Program. The Safer Choice Program is one of the EPA’s most respected and valued partnership programs, advancing the use of safer chemistry in effective product formulations. Momar is proud to be a partner with the EPA in this program. Facilities that use EPA Safer Choice recognized Greenaction products are participants in this important national effort to protect the environment and safeguard human health.
