Subject: Thyme Bomb

Bill,

Just wanted to drop a note to let you know that the Thyme Bomb we purchased from you back in November has been working great. We now use it in all of our buildings and it has eliminated all the insects that we were having troubles with. In one building we had a problem with Wood Ants, but after using Thyme Bomb just one time we have not had anymore ants – not even a sign of them.

We will use Thyme Bomb from now on.

Thank You,

A handwritten signature in black ink, appearing to read "J. Horry". The signature is stylized with a large loop for the letter "J" and a long horizontal stroke for the "H".
